Mosquito Spraying On August 3 and August 4, 2011

The Summit County Health District will be spraying for mosquitos on Copley Road and West Akron on Wednesday, August 3, 2011 and in Northwest Akron and in the Valley on Thursday, August 4, 2011. Spraying will begin at approximately 8:30 p.m. and continue until completed. In the event of bad weather, the spray schedule may be modified.

Residents can also take personal safety precautions to protect against mosquitoes. They can wear light-colored clothing, long sleeve shirts, long pants, socks and shoes, stay indoors during dawn and dusk hours, keep window and door screens in good condition, and use repellents that contain Picaridin or DEET. The amount of DEET in a repellent should be 30% or less for adults and 10% for children.

Questions and concerns? Call (330) 923-8856.
